

Self-Introduction

Good morning. Thank you for having me.

My name is Aryan Mehta. I am from Pune and I have recently completed my B.E. in Computer Science from PICT Pune in 2025.

During my college years I developed a strong interest in Data Science. Working with data, finding patterns, and building models that solve real problems genuinely excites me. This curiosity pushed me to learn things beyond my syllabus — I explored machine learning, worked on projects, and kept building my skills step by step.

I am someone who is hardworking, curious, and always willing to learn. I am not afraid of challenges and I believe consistent effort always pays off.

I am now looking forward to starting my professional journey in Data Science, contributing to a good team, and growing every day.

Thank you for this opportunity. I am really excited to be here.
